

**New York Presbyterian Hospital**

**Emergency Medicine Residency Training Program**

**Weill Cornell Medical Center**

**Columbia University Medical Center**

**Effective Dates: \_\_\_\_\_ through \_\_\_\_\_**

**Clinical Privileges Delineation Form**

**Name:**  
**(Please Print)**

**Direct Supervision (DS) - The supervising physician is physically present with the residents and patient.**

**Indirect Supervision (IDS 1) – The supervising physician is physically within the hospital or other site of patient care, and is immediately available to provide Direct Supervision.**

**Indirect Supervision (IDS 2) - The supervising physician is not physically present in the hospital or other site of patient care but is immediately available by means of telephonic and/or other electronic modalities and is available to provide Direct Supervision.**

**Oversight (OS) – The supervising physician is available to provide review of procedures/encounters with feedback provided after care is delivered.**

All procedures will be performed under the level of supervision as provided below. Residents must be certified prior to performing procedures under the Oversight or Indirect Supervision categories. Certification occurs by performing that procedure the number of time indicated in the parenthesis ( ) below. During certification, these must be performed under Direct Supervision of an appropriately credentialed physician. During the certification process it will be the residents' responsibility to assure that appropriate supervision is present prior to performing the procedure/treatment. Once certified that certification will be in effect for the duration of the training period unless otherwise notified by the Program Director.
